As a property owner, tenant, or person who has requested notice, please be advised that the County of San Bernardino Solid Waste Local Enforcement Agency (LEA) received and is considering an application to modify the solid waste facility permit (SWFP) for the Heaps Peak Transfer Station. The LEA is certified by the California Integrated Waste Management Board to enforce state laws and regulations at solid waste sites within the County of San Bernardino, including all active and closed landfills.

## Heaps Peak Transfer Station Modified Permit Public Notice

#### Description of Project and LEA's Preliminary Determination

Heap's Peak Transfer Station is located on the north side of State Highway 18, approximately 3.5 miles west of Running Springs and approximately 4 miles east of Lake Arrowhead. The site is located at 29898 State Highway 18 in Running Springs, California. On October 20, 2008 the LEA accepted for review, the permit application package to the SWFP from Heaps Peak Transfer Station requesting to change the self-monitoring reporting period on page 3 of the Solid Waste Facility Permit from 15 days to 30 days. No other changes to the SWFP are under consideration at this time.

The LEA finds that the proposed change is a non-material change pursuant to Title 27 §21665 and qualifies as a permit modification. The LEA's preliminary determination is that the proposed permit modification be approved.

The decision to approve or deny the SWFP modification will be made by the LEA within 120 days of the date the application was deemed complete as required by State statute, and will be submitted to the California Integrated Waste Management Board (CIWMB) for concurrence.

#### Where to get additional information

A copy of the modified permit application is available for public review by appointment in the LEA office located at 385 N. Arrowhead Ave. 2<sup>nd</sup> Floor, San Bernardino, CA 92415.
